

Simply superior innovation.

## No more patchwork.

As the only platform with a single-version service, we put all our effort into innovation—not patching legacy releases.

A single truth everyone can see.

## 100% visibility into every transaction.

AON unlocked real-time analytics across their global business.

Your transformation, de-risked.

## Straightforward packaged pricing.

Components let you size the platform to suit your company and budget, then scale as you grow.

One version, zero chaos.

## 15:1 systems consolidated.

Elders unified their data and systems to create a better user experience and gain insights.

# One platform, done right.

7 advantages you'll only get with Workday.

Start quickly, scale quickly.

## Accelerate time to value.

Workday helped NEXTDC move quickly to automated accounting and financial consolidation.

Enterprise-grade AI without the enterprise price.

## A\$190k saved by automating processes.

Kainos automated manual processes to cut costs and optimise resourcing and recruitment.

Automate the boring stuff. Let people thrive.

## 33% less time spent on half-year external audits.

Kainos finance and HR teams save time with smooth workflows and a single source of data.

## Discover the AI platform your competitors are using.
