

Meet Talent Acquisition Agent.

For Sean, a recruiter, the week disappears into interview scheduling. With Talent Acquisition Agent, candidates get sourced and graded, internal matches and past applicants surface against the req, interviews get booked, and interviewers get their prep — for permanent and contingent roles alike. Sean decides who moves forward; **everything around that decision is handled.**

Less admin grind. **More time finding top talent.**

Just tell **Talent Acquisition Agent** the candidates you need, and it supports sourcing, screening, and scheduling.
