

Certificate

Certificate number: 2017-022

Certified by EY CertifyPoint since: November 2, 2017

Based on certification examination in conformity with defined requirements in ISO/IEC 17021-1:2015 and ISO/IEC 27006:2015, the Information Security Management System as defined and implemented by

Workday, Inc. and Workday Limited*

located in Pleasanton, California, United States of America is compliant with the requirements as stated in the standard:

ISO/IEC 27017:2015

Issue date of certificate: October 2, 2019

Re-issue date of certificate: November 25, 2020

Expiration date of certificate: October 3, 2022

Last certification cycle expiration date: October 20, 2020

EY CertifyPoint will, according to the certification agreement dated August 7, 2019, perform surveillance audits and acknowledge the certificate until the expiration of the corresponding ISO/IEC 27001:2013 certification with certificate number 2013-007.

**The certification is applicable for the assets, services and locations as described in the scoping section at the back of this certificate, with regard to the specific requirements for information security as stated in the Statement of Applicability, version 2020.03, dated August 31, 2020.*

Exclusions from Scope:

Data centers are excluded from Workday's ISMS program scope. For operational processes outsourced to third parties, Workday obtains assurance on an annual basis through a report or certification on the effectiveness of the control environment documented by the outsource provider's independent auditor.

The boundaries of Workday's ISMS scope explicitly excluded:

- ▶ Processes and controls related to physical security and environmental safeguards that are owned and operated by the third party co-location data center providers hosting the in-scope services and environments;
- ▶ The following processes and controls specifically related to the public cloud environment that are owned and operated by a third party, which hosts the in-scope services and environments:
 - ▶ physical security

This scope is only valid in connection with certificate 2017-022.

Workday, Inc. and Workday Limited

Scope for certificate 2017-022

- ▶ environmental safeguards
- ▶ media disposal of physical assets
- ▶ logical access for the infrastructure and virtualization layers
- ▶ change management for the infrastructure and virtualization layers
- ▶ monitoring for the infrastructure and virtualization layers
- ▶ Media Cloud, including Legacy Packaged Media Content and User Interaction Data

The Information Security Management System mentioned in the above scope is restricted as defined in "Integrated ISMS _ PIMS Handbook" version 2020.03, dated November, 2020.

This scope is only valid in connection with certificate 2017-022.
