

Workday Launch Express

Rapid deployment, lasting value

With a preconfigured approach based on our successful past deployments, **Workday Launch Express** helps you realise value faster by getting you up and running in a predictable, accelerated time frame.

Accelerate your go-live

Accelerate your go-live with a cost-effective, preconfigured foundation that allows you to include additional outcomes based on your business needs. But the support doesn't stop there. Workday Launch Express packages also include **Expert Assist** to help you adopt new features, stabilise configurations, and confidently manage your Workday tenant once you're live.

- **Feature-rich packages** are built on what's commonly deployed.
- Every package includes the **critical functionalities** our customers typically use for Workday success, with the flexibility to adopt more as your business evolves.
- Get a **head start** with a preconfigured tenant. Based on leading practice configurations, you'll see your data in action across all package areas, leading to better deployment decisions.
- Enjoy a **flexible and simplified experience**. Choose your package, add-ons and integration requirements. Our streamlined deployment process minimises cycles and resource needs.
- **Resources prepare you for go-live and beyond**.

Key features that deliver value

Empowering success, our key features are designed to drive impactful results and move your business forward.

- **Go live in 10–20 weeks**
- **Defined outcomes** at a fixed price
- **Prescriptive approach** leveraging preconfiguration based on thousands of customer deployments
- Allows incremental **changes and simple integrations**
- **Single data pull** with “come as you are” data transformation
- Designed for **small and midsize businesses**
