Safe Harbor Statement

This presentation may contain forward-looking statements for which there are risks, uncertainties, and assumptions. If the risks materialize or assumptions prove incorrect, Workday's business results and directions could differ materially from results implied by the forward-looking statements. Forward-looking statements include any statements regarding strategies or plans for future operations; any statements concerning new features, enhancements or upgrades to our existing applications or plans for future applications; and any statements of belief. Further information on risks that could affect Workday's results is included in our filings with the Securities and Exchange Commission which are available on the Workday investor relations webpage: www.workday.com/company/investor_relations.php

Workday assumes no obligation for and does not intend to update any forward-looking statements. Any unreleased services, features, functionality or enhancements referenced in any Workday document, roadmap, blog, our website, press release or public statement that are not currently available are subject to change at Workday's discretion and may not be delivered as planned or at all.

Customers who purchase Workday, Inc. services should make their purchase decisions upon services, features, and functions that are currently available.

Agenda

- Introductions & Opening
- Fireside chat with Jon Dawson (Lore Group)
- Scheduling & Time Tracking Demo
- Q&A

How Lore Group make the most of their people's time

- **Workday Time Tracking** is part of a single system with absence, HCM and payroll
- **Lore Group** will share their experience of being an **Early Adopter** of our intelligent scheduling management software, which uses AI to match worker preferences with business demands
- In this demo:
 - Showcase how Workday Scheduling gives visibility into weekly schedules with the flexibility to make last minute changes as business and people requirements change
 - How Workday Scheduling can create optimised schedules based off labour demand using Workday's own AI tool
 - Transition over to the employee, to showcase how they can have visibility and ownership of their own schedules & manage their time accordingly
